

FORT HUNT PRESCHOOL FINANCIAL AID INFORMATION

Fort Hunt Preschool is committed to providing an affordable preschool education for our member families. In addition to our reasonable tuition rates, we strive to offer financial aid in the form of tuition assistance to those families who may not otherwise be able to afford the preschool experience or who suffer a temporary financial hardship. Our ability to offer financial aid is dependent upon the financial resources available in our scholarship fund.

Eligibility: Any admitted student may apply for financial aid during the enrollment process for the school year for which admission has been granted. Families with a child currently enrolled at FHP seeking financial aid as a result of temporary financial hardship are eligible to apply for financial aid at any time during the school year by contacting the Director or the Treasurer.

Application Process: Applications for financial aid for the following school year are accepted during the spring enrollment period. All enrollment decisions are made prior to the review of and independent of any requests for financial aid. The Financial Aid Committee, consisting of the Board President, Treasurer, and Director, reviews each application for financial aid, taking into account the family's gross income, number of dependents, and any other factors specific to the applicant's financial circumstances. Decisions are based strictly on financial need. The Financial Aid Committee makes recommendations of financial aid awards to the Board of Directors, which must approve all awards of financial aid. The availability and amount of financial aid awarded is dependent on the availability of financial aid funds for the year and the number of financial aid applicants. Accepted families who have requested financial aid will be notified of the amount of financial aid available to them before being asked to make a financial commitment to the preschool.

Families receiving financial aid must reapply each year and are not guaranteed to receive financial aid in any subsequent year. The tuition amounts and other financial obligations not covered by a financial aid award are due and payable as required by the enrollment contract.

Confidentiality: All financial aid applications are kept strictly confidential and are reviewed solely by the Financial Aid Committee. Financial Aid decisions will be communicated to the applicants by mail.
